

# PRINCE2® for Creatives

Course Outline

**Location:** Online

**Duration:** 5 Days

## **What is PRINCE2®?**

PRINCE2® is the project management method of choice for industry sectors across the UK and for public bodies like government agencies, local authorities and NHS trusts.

## **The benefits of PRINCE2® certification.**

There's never been a better time to enhance your CV with PRINCE2® certification. People working in the creative industries have hugely transferrable skills, but tend not to hold formal qualifications. Sadly, with jobs so hard to come by in these industries, people are having to look for work in other sectors – and are finding that many jobs require formal qualifications like PRINCE2®.

## **Online, tutor-led training.**

Passing the PRINCE2® exams first time isn't easy, but we have been delivering accredited training courses for nearly 20 years in our training centre in the world-heritage city of Bath. During that time, we've helped thousands of delegates from all industry sectors to become PRINCE2® certified. But these are challenging times and we understand that many people are still anxious about returning to the classroom. That's why we're now offering our PRINCE2® Foundation and Practitioner course as a 5-day, tutor-led online event.

## **It doesn't have to be painful.**

The course prepares you for both the PRINCE2® (6th Edition) Foundation and Practitioner examinations, but it's tailored especially for the creative and events industries. We use industry case studies throughout the course. This makes learning the PRINCE2® method so much easier – and fun. Come and join the production team of the Melchester players as they plan their annual fund-raising production. Macbeth meets Peaky Blinders, in the time of COVID. What could possibly go wrong?

## Plain English

We teach in jargon-busting plain English. Our lead tutor, Steve Tofts, is the author of the book PRINCE2® in Plain English. A copy of his book is included in the cost of the course together with the official guidance manual, Managing Successful Projects with PRINCE2®.

### Our Virtual Classroom

Our virtual PRINCE2® classroom offers all of the benefits of studying in our training centre – as well as the flexibility of online learning:

- You're supported throughout the course in real time by our expert tutor
- You can raise your hand to catch the tutor's attention and ask questions
- You'll work collaboratively with small groups of other students in virtual breakout rooms. A real-world case study gives you the chance to put what you've learned into practice.
- Every session is recorded so you can review any part of the class at the end of each day
- You can take quizzes and practice exams in your own time and get instant feedback.
- You don't need to travel anywhere, so it's perfect if you're working from home
- You don't need to download any software – you only need a web browser, computer and internet connection

### Your Tutor

#### Stephen Tofts - Course Director

Steve has more than 20 years experience as a project manager in the UK, Europe and the Middle East. During that time he's helped thousands of people from all industry sectors to achieve PRINCE2® certification.

### Exams

#### Exam Preparation.

You can take the exams during course – or at a later date if you'd prefer to do some additional preparation. Whichever you choose, we'll support you every step of the way.

#### Our Guarantee.

If you fail to pass first time, you can attend the course once again for free, paying only your exam costs.
